Web Enabled Support That Works!

Computer Problems?

We Have Solutions

We connect via the internet and can assist you with your issue or question in moments.

Call us today! (617) 763-7493

Don't wait for a tech onsite

VIRUS AND SPYWARE REMOVAL.....\$125

Our team is well versed in procedures to effectively detect and remove the issue. Once the virus or spyware is removed, we will run a series of diagnostics to ensure the systems stability. Some viruses if left untreated, can take longer to correct. This flat fee covers the first four hours of support and regular hourly rates apply after four hours.

We connect via the internet

PC TUNE-UP AND OPTIMIZATION.....\$45

Is your PC running slow? Does the system take considerably longer to start up? Your system is in need of a PC Tune-Up and we can help.

Some steps we take:

- Drive Defragmentation
- Cleanup of Startup Files
- Cleanup of Background Services
- Cached and Temporary Files Cleanup
- Windows Defender and Antivirus Assessment
- Hard Drive and Memory Diagnostic

Flexible solutions for your business and home

WEBSITE DESIGN

Your company website can be designed to be an online company brochure displaying all your services and products along with your location and contact information. **Already have a website?** Having a company website powered by Fort Point Systems means your website is loaded with 100% searchable keywords and Meta data. Your website then is not just website; it is a powerful engine visible to your potential customers.

- Free meetings to determine your unique needs
- Completely custom site to fit your unique services
- Stat capturing capabilities and customer forms

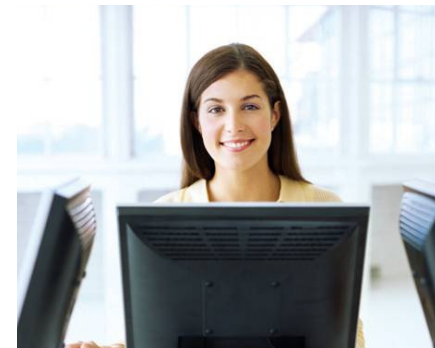

SEARCH ENGINE OPTIMIZATION.....\$25/hour

We will help you gain more traffic to your website by utilizing stat capturing and social media services. We install code on your website, providing tracking information and consistently build on the results. We will use popular social media forums like Facebook and Twitter and hand you monthly reports of the results.

HOME COMPUTER GIVING YOU PROBLEMS? WE'LL CONNECT
KIDS OFF TO COLLEGE? SEND THEM WITH SUPPORT

COMPUTER MANAGEMENT.....\$20/month

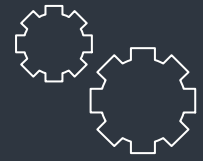

We make sure your data is protected and your systems continue to run at optimal condition. When you sign on for a monthly subscription we automatically begin with a computer/ network audit, antivirus assessment and continual protection as well as a computer tune-up every other month.

This service is provided to you for as little as \$20/month per computer or peripheral (printers, routers, switches, etc.)

- Microsoft Updates Management
- Critical Services Management
- Custom Applications Management
- PC Optimization
- Data Drive Maintenance
- Backups Management
- Security Management

*This service kicks off with an administration fee of \$100 per computer

WEBSITE ANALYTICS

The wheels are in motion and we will show you proof. Monthly analytical reports are handed to you to show your website's progress. We know what the stats mean and we have the ability to build on the results.

REMOTE SUPPORT

We connect via the internet. No need to wait for a tech onsite. Our techs connect via remote connection. It is easy, fast and secure. Enjoy the benefits of fast remote support and go on with your day. Stuck on something? We have the ability to assist you right away.

SOFTWARE INSTALL

Get that important piece of software installed on your PC or Mac. We install and or repair, configure and update your software and add desktop, start menu and launch menu shortcuts for easy access. Software not included.
